

Clara and her family want to walk to school everyday but there are

**no sidewalks & no crosswalks.**

Howard County needs better streets so people can walk, bike, use their wheelchair or ride the bus more safely. We need streets for all.

# Take action now: We need a world-class complete streets law

The county has only offered weak proposals. Urge County Executive Calvin Ball and the County Council to pass the kind of complete streets law we deserve. Tell them:

- To require developers and the county to design **safe and connected roads** for everybody, not just cars.
- It's good for health, the environment and the economy.
- We're behind. Neighboring communities have passed a complete streets law.
