Howard County Adequate Public Facilities Ordinance Committee chair, and members, Howard County Council Chair and County Councilmembers, Howard County Executive,

My name is \_\_\_\_\_

and I live in \_\_\_\_\_.

I have a vested interest in the adequacy of public infrastructure in Howard County. Our current APFO provides a positive benefit to my community by timing adequate public infrastructure with planned development. The ordinance still requires significant improvements to deliver on its objective despite numerous exemptions and exclusions of other key public services. I particularly rely on APFO to prevent \_\_\_\_\_ at our public schools.

Proposed APFO measures that exchange adequacy or lower the definition of adequacy for other considerations affect me \_\_\_\_\_.

Citizens of this county have waited a decade for the opportunity for APFO to be updated to ensure all residents have access to comprehensive adequate public facilities at all levels of growth. I support improvements that achieve this goal and ask that decisionmakers support this objective as well.

Respectfully \_\_\_\_\_
